FROM THE AUTHOR

THE BONE LABYRINTH paperback debuts today!

I'm happy to report that the paperback edition of *THE BONE LABYRINTH* hits stands today. In the past, several of my books "have gone to the dogs," with scenes written from the viewpoint of a military working dog. In this latest Sigma Force novel, I'll be taking you into the perspective of a western mountain gorilla, to shed light on what it means to be such a magnificent creature. Of course, when it comes to Commander Gray Pierce and company, mayhem quickly ensues—involving the search into the origins of mankind's intelligence and a mystery tied to the lost continent of Atlantis. And since this book also deals with Neanderthals, I thought it the perfect time to write scenes from the viewpoint of a character who has appeared in multiple Sigma stories but who has never fully had the spotlight shone upon him. I'm speaking, of course, of Joe Kowalski, Sigma's resident expert in blowing things up. So consider yourselves warned!

Also included with the paperback edition is the short story, *The Midnight Watch* (featuring a solo escapade with Mr. Kowalski) AND an early sneak peek at this winter's next big Sigma novel, *THE SEVENTH PLAGUE*.
