

**James Rollins** is a #1 New York Times bestselling author of international thrillers, translated into more than forty languages. His Sigma series has been lauded as one of the "top crowd pleasers" (New York Times) and one of the "hottest summer reads" (People Magazine). In each novel, acclaimed for its originality, Rollins unveils unseen worlds, scientific breakthroughs, and historical secrets--and he does it all at breakneck speed and with stunning insight.

Known for building high-octane adventures on a solid science foundation, Jim juxtaposes the familiar with the exotic and then turbo-charges his tales with suspense. Always mindful of history's legacy, Jim reveals how secrets, some hidden for centuries, can change the course of human events. His novels explore how advancing technology can impact society – not just the physical threats of unchecked developments, but also the spiritual and moral challenges that result. "The true terror of technology is not the cogs and the wheels, but how it will change us," he says.

### ***The Bestselling Sigma Force Series***

A division of DARPA (the Defense Advanced Research Projects Agency), Sigma Force is a covert organization of highly skilled Special Forces operatives with expertise in two or more scientific fields. Each novel stands alone, yet all share a cast of recurring characters – and some unexpected appearances by characters from Jim's previous thrillers. With *Sandstorm*, the prequel to the Sigma Force series, Jim debuted on the New York Times bestseller list. Each consecutive Sigma novel has climbed higher on that list, breaking into the Top Five.

### ***Independent Adventure-Thrillers***

When Lucasfilm sought an author to convert the fourth Indiana Jones blockbuster into novel form, the logical choice was James Rollins to create the book-length tale of everyone's favorite globe-trotting, treasure-hunting, wisecracking archaeologist: *Indiana Jones and the Kingdom of the Crystal Skull*.

Jim's earlier thrillers include *Subterranean*, *Excavation*, *Deep Fathom*, *Amazonia* and *Ice Hunt*.

### ***Adventures for Kids and Adults***

Jim's first adventure for kids and adults, *Jake Ransom and the Skull King's Shadow*, was published in May, 2009. Jake and his sister embark on a search that takes them across time and mysterious lands to discover the true fate of their parents, who disappeared three years earlier while on an archaeological dig in Mexico.

### ***Short Fiction***

On request from editors, Jim has developed works of short fiction for anthologies such as *Warriors*, a cross-genre collection of short fiction selected by Gardiner Dozier, George R.R. Martin and Daniel Abraham. Jim's story, "The Pit," will appear alongside pieces from top-name authors such as Joe Haldeman, Tony Hillerman and Neil Gaiman.

Also upcoming is a James Rollins chapter in the *7 Days* serialized novel in Glen Beck's Fusion Magazine. Each issue features a different bestselling author writing a new chapter of the serial thriller. An earlier piece, "Kowalski's in Love," for James Patterson's anthology *Thriller (2006)*, featured a hard-boiled, indomitable Seaman who reappears years later in the most unexpected place: *The Last Oracle*.

### **The Storyteller's Story**

As a boy, James Rollins immersed himself in the scientific adventures of Doc Savage, the wonders of Jules Verne and H.G. Wells, and pulps featuring The Shadow, The Spider, and The Avenger. From there sparked the desire to become a writer himself. Already an accomplished storyteller, spinning elaborate tales that often were at the heart of pranks played on his brothers and sisters, Jim went on to hone his writing skills.

Although his talent emerged and grew, writing was not Jim's original profession. Before he would set heroes and villains on harrowing adventures, he embarked on a career in veterinary medicine, graduating from the University of Missouri and establishing a successful veterinary clinic in Sacramento, California. This hands-on knowledge of medicine and science helps shape the research and scientific speculation that set James Rollins books apart.

Jim's mentoring skills and generosity have made him a popular writing instructor and guest lecturer across the country, including at the Hawaii Writers Conference and Retreat, where he is among the core faculty. In 2005, Jim joined other luminaries in the genre to create International Thriller Writers, Inc., to recognize and promote the thriller genre, to provide opportunities for mentoring, education, and collegiality among authors and industry professionals, and to grant awards for excellence in the genre. In 2009 Jim served as the Co-President of ITW alongside Steve Berry.
